Re upcoming DJ JFK assassination report 12/19/83

The attached copy of the DJ's 11/16/83 letter to Stokes, which I've just receivd from Ted Gandolfo, seems to confirm a report of a little over a month ago that the DJ would be releasing something after the first of the year. There is only a very general indication of what will be released.

I had not heard that DJ had received any kind of rebutal of the NAS acoustical study report or that Keuch had left the DJ.

I do not know any special reason for DJ not to have told Stokes the author(s) of this rebuttal.

For me, sufficient unto the day...

For you, in the enext this is new to you and can have any meaning for you.

Sincerely,

Harold
